

Post-conference Workshops

Saturday 17/02/2024 - Half day (9 am – 1 pm)

Hotel Porta

Post-1: Introduction to the Volcanology Infrastructure for Computational Resources and Tools (VICTOR)

English / Participants: 10 – 20 / Cost: 10 US\$ / Hybrid (in person & virtual attendance)

We will introduce a new cloud-based cyber infrastructure for volcanology which enables users to run models of volcanic processes (e.g., lava flows, ash dispersal) and utilize workflows that build on these models for data inversion, uncertainty quantification, and hazard forecasting.

Workshop organizers:

Einat Lev, Lamont-Doherty Earth Observatory (einatlev@ldeo.columbia.edu)

Sylvain Charbonnier, University of South Florida (sylvain@usf.edu); Charles Connor, University of South Florida (cbconor@usf.edu); Abani Patra, Tufts University (Abani.Patra@tufts.edu); Sam Krasnoff, Lamont-Doherty Earth Observatory (krasnoff@ldeo.columbia.edu).
